**An early warning
system for your
Investments,**

**because you've
worked too hard
to be surprised
by your money.**

Helping to protect your wealth has never been easier. Answering a simple 10-question risk questionnaire is all it takes to get started. This will help you understand how much risk you should be taking with your investments, your ideal asset allocation, and your WealthGuard Number.

The Benefit of Being WealthGuarded

WealthGuard is a free-of-charge service that helps you watch over and protect your hard earned savings. It monitors all of your investment accounts, daily, helping reduce the possible effects of a large market crash and providing you with greater peace of mind.

In the event your accounts hit a new all-time high, your WealthGuard Number will also increase. If this happens, the system will notify you via email and/or text message.

WealthGuard tracks and monitors all of your investments in one place, helping to protect these investments by alerting you when you are approaching your WealthGuard value. This is achieved by setting up a secure data connection with your accounts.

Self
Managed

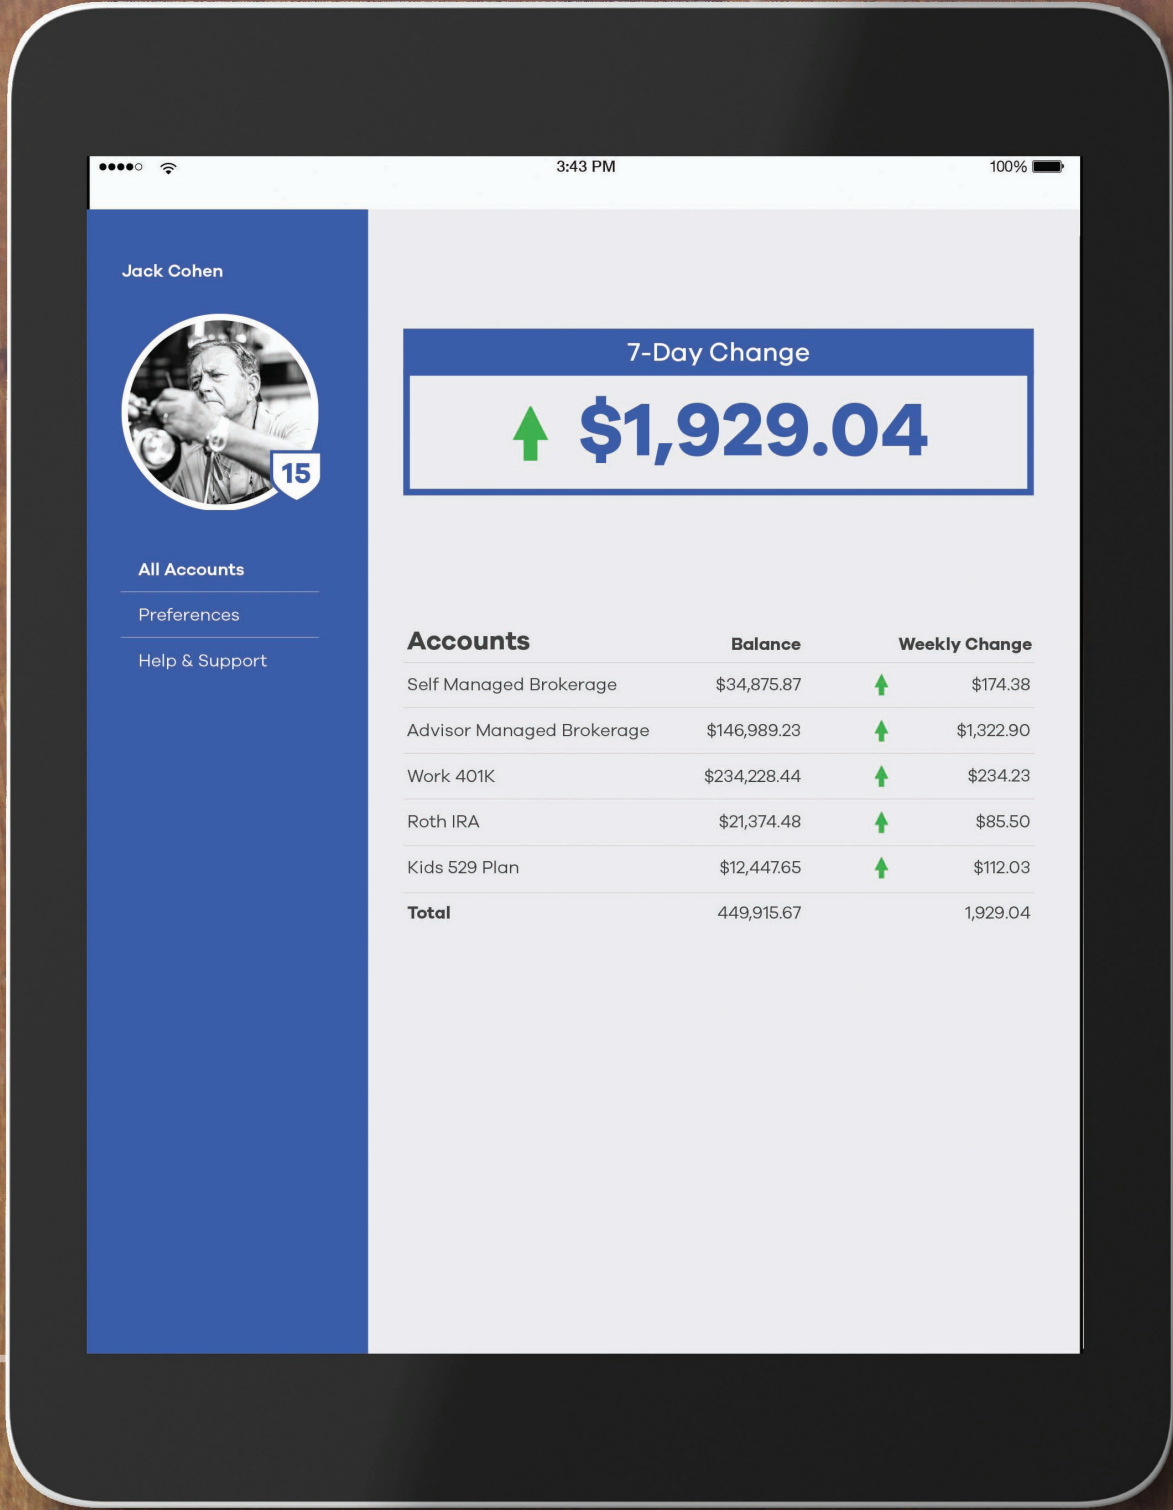

Advisor
Managed

401k

Since WealthGuard monitors all your accounts automatically, it can watch over your 401k, self-managed investment accounts and accounts managed by financial advisors at nearly every firm in the United States. Best of all, it monitors all of these different account types at no cost to you as an investor.

Once WealthGuard is set up and knows your risk tolerance and WealthGuard Number, it will automatically monitor all of your accounts based on the closing value each day. If your accounts ever start to decline in value, WealthGuard will give you an early warning if the decline is 75% of your WealthGuard Number. It also tracks your asset allocation and the overall performance of all your accounts every single day.

Approaching WealthGuard

While we all hope as investors to never reach our WealthGuard Number, should it happen, it's wise to have a plan. Studies show the biggest reason many investors fail is because they don't have a plan to deal with the emotional turmoil of financial market losses¹. That's where WealthGuard comes in. Should any of your accounts reach your preset WealthGuard Number, you'll be notified right away.

WealthGuard can also automatically notify your financial advisor. More importantly, WealthGuard will initiate a specific plan of action to help protect your accounts from further losses, while keeping you focused on your long-term investment goals.

WealthGuard is reached and your new strategy can be implemented.

By adjusting your portfolio strategy and WealthGuard percentage you may improve your outcome in the current market conditions.

¹Dalbar Inc.

WealthGuard is incredibly simple, yet incredibly powerful. It allows investors to invest towards their long-term goals with the confidence that there's a plan in place to help protect those investments in all market conditions.

Important
Disclosures

WealthGuard™ is a complete portfolio monitoring system. Designed by determining the amount of downside risk a client is willing to tolerate, WealthGuard™ is added to client accounts to help protect from downside risk. WealthGuard™ is not a stop loss strategy. When the account value in the portfolio hits the targeted downside value, an alert is sent to the client, advisor, and money manager. The money manager trades the account as indicated on the WealthGuard™ agreement.

There is no guarantee the exact WealthGuard™ value will be captured, or assets will be traded or liquidated the same day the WealthGuard™ value is reached due to time of day and/or market restrictions. WealthGuard™ is not responsible for any tax implications that may result due to the liquidation or trading of the holdings. FormulaFolio Investments is not responsible for any errors or omissions in the information used to prepare your WealthGuard™ percentages.

WealthGuard™ does not make any representations or warranties, whether expressed or implied, regarding investing in securities or investment products. WealthGuard™ makes no warranties to the legality or suitability of any investment product.
